

Ergänzungsaufgaben zur Addition zweistelliger Zahlen

1 Lege und rechne!

$$15 + \square = 38$$

$$z \ 15 + 20 = \square$$

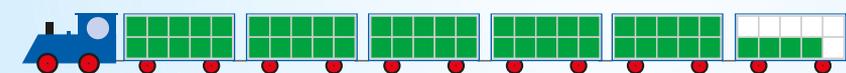

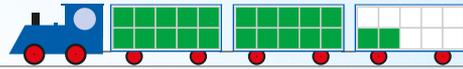

$$E \ \square + \square = 38$$

Hänge **erst** Zehnerwagen an, **dann** lade **Einer**kisten auf!

$$22 + \square = 36$$

$$z \ 22 + \square = \square$$

$$E \ \square + \square = 36$$

$$54 + \square = 78$$

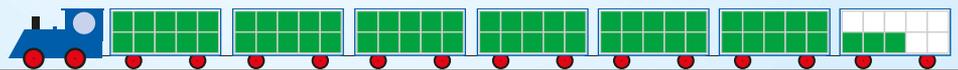

$$z \ 54 + \square = \square$$

$$E \ \square + \square = 78$$

$$63 + \square = 99$$

$$z \ 63 + \square = \square$$

$$E \ \square + \square = 99$$

2

$$46 + \square = 69$$

$$46 + \square = \square$$

$$\square + \square = \square$$

$$83 + \square = 97$$

$$83 + \square = \square$$

$$\square + \square = \square$$

$$32 + \square = 66$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$15 + \square = 58$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$7 + \square = 29$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$24 + \square = 88$$

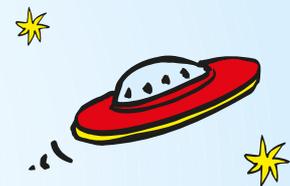

$$\square + \square = \square$$

$$\square + \square = \square$$

$$71 + \square = 96$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$42 + \square = 59$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$34 + \square = 69$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$12 + \square = 59$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$53 + \square = 88$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$23 + \square = 47$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$46 + \square = 79$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$67 + \square = 89$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$42 + \square = 98$$

$$\square + \square = \square$$

$$\square + \square = \square$$
